

CARBODY (BANBURY) LTD

- Customer:* Dave King, Carbody (Banbury) Limited
- Location:* Banbury, Oxfordshire
- Application:* Automotive vehicle refinishing
- Reason for installation:* An additional spraybooth was added to relieve the pressure on the existing spraybooth facility caused by increasing workloads.
- STL equipment installed:* Cyclone II spraybooth, complete with raised floor extraction, 7.5kW mixed flow fans with variable speed drive controls and automated economy standby mode.
- Project overview:* The Cyclone II spraybooth was selected for its exceptional performance, specification and value for money. Installation took less than 1 week, and included STL's unique fully gridded and extracted floor design, NBex (non-baffled even extraction), to ensure uniform air movement throughout the cabin.
- Customer comments:* "The quality of installation and equipment has exceeded my expectations, the booth was far from the most expensive, and the STL staff are very professional."
